

# Airfreddy's Guide on Learning To Fly

Step-by-Step Guide On the Private  
Pilot License From Start To Finish

## Fires

There is only one thing I can really say about Fires. I have outlined this in the emergency document. You will want to memorize the fire procedures in your POH. Other than that remember this:

**“GET ON THE GROUND-- NOW”**

**Emergency Descents:** Since this maneuver is not listed in any of the solo or Post solo/ solo cross Country Requirements, most students don't really know about this until they get to the flight test phase of their training and the instructor will quick go through the procedure so they pass the flight test.

This is a maneuver you want to have down pat and know how and when to execute it.
